

Homework Saplings Class
Wednesday 24th January 2018

Maths

This week we have continued to partition numbers, not just into tens and ones but into any pair of numbers that make that total. Can you find two sums that make the same total and write them in a balanced sum? For example, $12 + 5 = 16 + 1$. Keep a lookout on Purple Mash for Maths challenges that I have set you, or maybe you would like to search for your own Maths challenges on there. Remember, if you save your work, I will always be able to see what you have done...and you'll earn team points!

English

In English this week we have been reading and writing poetry. When you are reading, if you spot any wow words or rhyming words, bring them in so we can use them when we write more poetry next week.

Reading

There's just two weeks to complete your Reading Passport. We're looking forward to seeing you perform your chosen poem to the class if you haven't done so already.

Many thanks

Mrs Swansborough and Miss Ellis
