

**Homework Saplings Class**  
**Wednesday 21<sup>st</sup> March 2018**

**Maths**

This week we have been sharing a set of objects into groups of four. These are called quarters. Can you share a number of objects into quarters? Maybe you can record what you done have in pictures or by using the  $\div$  sign. How many are in each quarter? How many are in 2 quarters? How many are in three quarters?

**English**

In English this week we have been reading the story of Romeo and Juliet. Who was your favourite character? Do you know the story of Gnomeo and Juliet? Can you draw or write the story? Maybe you could write your own version of Romeo and Juliet. Maybe between two animals or two aliens!

**Reading**

Well done to everyone who completed their Reading Passport this term. Keep reading your choice of books at home. Don't forget that there are lots of different types of stories to enjoy on Purple Mash.

Many thanks

Mrs Swansborough and Miss Ellis
